

A *Legendary* TALE UNFOLDS

From the rolling hills of rural north Georgia comes a tale of a couple living their dreams with Arabian horses. When Gary and Wanda Kenworthy bought their first Arabian filly, this ancient breed got into their lives and hearts. Mere than a decade later, Paradise Arabians has many stories to tell...and many mouths to feed! Home to more than 100 of the finest Egyptian Arabians on the planet and a brand new state-of-the-art barn and breeding facility, the Kenworthys' farm truly is Paradise.

Paradise has begun a new chapter in its story—the story of home-bred, first year breeding stallion, Scapa. With his first foals due to hit the ground in 2008, the world anxiously awaits the next page in their family album.

MORE THAN A BUSINESS: *a Family*

The Kenworthys believe their success is due largely to their fine bloodstock and commitment to their clients. "When people visit Paradise, they become a part of our family. Our clients are our dearest friends," shares Wanda. They invite you to stop by their farm for a chef-prepared lunch and an afternoon filled with feeding carrots to beautiful horses.

Paradise's treasured horses are world-renowned, now owned by kings, National Champion-producing breeders in Australia, and sport horse enthusiasts in Puerto Rico (to name a few). But these horses have also changed the lives of people like Jeannette, who spends her weekends at Paradise, letting her award-winning mare share her afternoon sweet tea. Or Bill and Cheryl Corcoran, who began a second business with a Paradise horse in every color. Whether you dream of a farm of your own, or the most beautiful, sought after companion you could imagine, let Paradise help you create your own legendary history. Call to visit us today!
