

A *Legendary* TALE UNFOLDS

From the rolling hills of rural north Georgia comes a tale of a couple living their dreams with Arabian horses. When Gary and Wanda Kenworthy bought their first Arabian filly, this ancient breed got into their lives and hearts. More than a decade later, Paradise Arabians has many stories to tell...and many mouths to feed! Home to more than 100 of the finest Egyptian Arabians on the planet and a brand new state-of-the-art barn and breeding facility, the Kenworthys' farm truly is Paradise.

Paradise's story continues with a stellar foal born to that very first filly...now an aptly named champion and sire, The Singleton produced his first foals in 2007, each of which is a striking, show-quality filly. The legacy continues...

MORE THAN A BUSINESS: *a Family*

The Kenworthys believe their success is due largely to their fine bloodstock and commitment to their clients. "When people visit Paradise, they become a part of our family. Our clients are our dearest friends," shares Wanda. They invite you to stop by their farm for a chef-prepared lunch and an afternoon filled with feeding carrots to beautiful horses.

Now, Paradise is writing a new page in its story through the life of home-bred, first year breeding stallion, Scapa. With his first foals due to hit the ground in 2008, the world anxiously awaits the next chapter in their family album.

Paradise's treasured horses are world-renowned, now owned by kings, National Champion-producing breeders in Australia, and sport horse enthusiasts in Puerto Rico (to name a few). But these horses have also changed the lives of people like Jeannette, who spends her weekends at Paradise, letting her award-winning mare share her afternoon sweet tea. Or Bill and Cheryl Corcoran, who began a second business with a Paradise horse in every color. Whether you dream of a farm of your own, or the most beautiful, sought after companion you could imagine, let Paradise help you create your own legendary history.
